

Eczema

How it reddens the skin, itches, oozes, dries and scales! Some people call it tetter, milk crust or eczema. The suffering from it is sometimes intense; local applications are resorted to—they mitigate, but cannot cure. It proceeds from humors inherited or acquired and persists until these have been removed.

Hood's Sarsaparilla

positively removes them, has radically and permanently cured the worst cases, and is without an equal for all cutaneous eruptions.

Hood's Pills are the best cathartic. Price 25 cents.

The C. W. B. M. Auxiliary.

The following persons have recently become members of the local auxiliary to the C. W. B. M.: Mrs. G. W. Wheeler, Misses Pearl Rush, Malissa Shackelford, Mary Killgore, Nevada Nickell, Daisy Day, Estella Short, Beulah Williams, Mollie Coldiron, Myrtle Ringo, Mrs. E. M. Russell and Robert Howard Patton, making a membership of 25. The offering on C. W. B. M. day was \$10.40. It is a most hopeful indication when the women—old and young—become interested in the organization of the Christian Woman's Board of Missions. We cannot see why every christian woman in the community does not become a member of the local auxiliary. The very fact of doing systematic organized missionary work should be a strong incentive to every christian woman. While the women of Hazel Green and community are not wealthy, and have not much of this world's goods, yet there is no reason why they should not be wealthy in faith and spiritual work.

The Christian Woman's Board of Missions admits christian women to its membership from any church. Christian women who are willing to share the work of the C. W. B. M. will always be welcomed by local auxiliaries, and State and National Boards. Why not make this Hazel Green Auxiliary number on its rolls 50 women by the close of January, 1903?

Down in Texas at Yoncaum, is a big dry goods firm, of which Mr. J. M. Haller is the head. Mr. Haller on one of his trips East to buy goods said to a friend who was with him in the palace car, "Here, take one of these Little Early Risers upon retiring and you will be up early in the morning feeling good." For the "dark brown" taste, headache and that lousy feeling DeWitt's Little Early Risers are the best pills to use. Sold by all druggists.

PROFIT

The matter of feed is of tremendous importance to the farmer. Wrong feeding is loss. Right feeding is profit.

The up-to-date farmer knows what to feed his cows to get the most milk, his pigs to get the most pork, his hens to get the most eggs. Science.

But how about the children? Are they fed according to science, a bone food if bones are soft and undeveloped, a flesh and muscle food if they are thin and weak and a blood food if there is anemia?

Scott's Emulsion is a mixed food; the Cod Liver Oil in it makes flesh, blood and muscle, the Lime and Soda make bone and brain. It is the standard scientific food for delicate children.

McGuire-Wheeler.

A private letter from Miss Nettie Wheeler informs us that she closed her school at Whynot, in Lee county, on the 5th inst., and apparently, to celebrate the event, she was married on Monday, the 7th inst., to James B. McGuire, of that place. Mr. McGuire is a prominent and prosperous young farmer of Lee county, of which he is a native, well connected, industrious, and altogether calculated to prove a worthy helpmate to one so congenial as Miss Nettie, with whom most of our readers are too well acquainted to need encomium from us. She is a young lady of prepossessing appearance and manners, well educated, intellectually bright, with literary bent and considerable talent. Withal, however, she has a sufficient knowledge of domestic affairs to make "love in a cottage" a reality rather than a dream, and for the couple who are thus equipped to embark on life's voyage we predict smooth sailing upon an unruffled sea. THE HERALD wishes them bon voyage and perpetual pleasures until the final port of old age is reached under a cloudless sky and they come to die.

Good for Children.

The pleasant to take and harmless One Minute Cough Cure gives immediate relief in all cases of cough, croup and lagrippe because it does not pass immediately into the stomach, but takes effect right at the seat of the trouble. It draws out the inflammation, heals and soothes and cures permanently by enabling the lungs to contribute pure life-giving and life-sustaining oxygen to the blood and tissues. Dr. Armstrong of Dallas, Texas, prescribes it daily and says there is no better cough remedy made. Sold by all druggists.

The marriage of George Ringo and Miss Lillie Hamilton on the 8th inst., illustrates the triteness of the old saw, "Love laughs at locksmiths." Scuyler Hamilton, father of the bride, did all in his power to prevent the "consummation of the wish so devoutly desired" by the two dearies, but they met at Mt. Sterling and were married. George Ringo is a son of W. W. Ringo of this place, and the bride the daughter of W. S. Hamilton and wife of Montgomery, but formerly of Menifee county. THE HERALD sends congratulations and suggests that they should now subscribe. Try a year at 50c, George.

Revolution Imminent.

A sure sign of approaching revolt and serious trouble in your system is nervousness, sleeplessness, or stomach upsets. Electric Bitters will quickly dismember the troublesome causes. It never fails to tone the stomach, regulate the kidneys and bowels, stimulate the liver and clarify the blood. Run down systems benefit particularly, and all the usual attending aches vanish under its searching and thorough effectiveness. Electric Bitters is only 50c, and that is returned if it don't give perfect satisfaction. Guaranteed by all druggists.

D. Y. Combs, of Hazard, Ky., "I have suffered for ten years with my stomach and all doctors failed. I have used four bottles of your Kodol Dyspepsia Cure and can now eat and drink anything I want." It supplies the natural juices of digestion and does all the work of the stomach, while the inflamed muscles are allowed to rest and heal. Sold by all druggists.

State College of Kentucky.

THE AGRICULTURAL AND MECHANICAL (State College) College of Kentucky offers the following courses of study, viz: Agricultural, Horticultural, Chemical, Biological, Mathematical, Physical, Normal School, Classical, Mechanical Engineering, Electrical Engineering, Civil Engineering, each of which extends over four years and leads to a degree. Post Graduate studies are also provided, leading each to a Master's degree. Each course of study is organized under a separate faculty. The general faculty numbers more than 50 professors and instructors.

COUNTY APPOINTEES receive tuition, room rent in dormitories, fuel and lights, and if they remain 10 months, traveling expenses.

The laboratories and museums are large, well equipped, comprehensive and modern.

The Legislature appropriated \$60,000 for a College home for young women and \$30,000 for drill hall and gymnasium for men. The latter is completed and in use, the former will be ready for occupancy in October.

Military tactics and Science are fully provided for as required by Congress.

Graduates from the several courses of study readily find excellent positions and liberal remuneration. The demand is largely in excess of the ability of the College to supply. Last year the matriculation list was 604.

Summer Schools are provided for Pedagogy, Engineering and instruction in Science.

Specialists with the necessary number of assistants have charge of each department of Natural Science.

The State College of Kentucky, though bearing hitherto the title of COLLEGE, is the only institution in the Commonwealth doing, in any proper sense, University work.

The completion of the College Home for young women will provide facilities for good board and lodging. It is equipped with all modern conveniences including bath rooms and room for physical culture. It will be heated by steam and lighted by electricity.

An opportunity is afforded to them of a thorough education in Classics, Modern Languages, Literature, Science, Mathematics, Logic, Metaphysics, History and Political Economy. No other institution in the State offers advantages for the education of women at all comparable to those offered by the State College of Kentucky.

Dragging Pains

2925 Keeley St.,
CHICAGO, ILL., Oct. 2, 1902.

I suffered with falling and congestion of the womb, with severe pains through the groin. I suffered terribly at the time of menstruation, had blinding headaches and rushing of blood to the brain. What to try I knew not, for it seemed that I had tried all and failed, but I had never tried Wine of Cardui, that blessed remedy for sick women. I found it pleasant to take and soon knew that I had the right medicine. New blood seemed to course through my veins and after using eleven bottles I was a well woman.

Maud Bush

Mrs. Bush is now in perfect health because she took Wine of Cardui for menstrual disorders, bearing down pains and blinding headaches when all other remedies failed to bring her relief. Any sufferer may secure health by taking Wine of Cardui in her home. The first bottle convinces the patient she is on the road to health.

Sight May Be Restored.

The Lexington Morning Herald, of the 15th inst., says that J. W. Day, blind from infancy, 43 years of age, was operated on at the Good Samaritan Hospital in that city on Monday for congenital cataract of the eyes. The question that is now burning in his brain is, "When the bandages are removed will I see?" Day is from Ashland, and is widely known as "the blind musician," as his violin is his sole support for his wife and six children. Since he was three years old, when he had a severe attack of typhoid fever, he has never seen the sunlight.

In the brief interval between the removal of the cataract and the placing of bandages on his eyes, he saw two fingers of the physician, his glasses and a ray of sunlight which was filtered into the room—the sunlight which he knew as a bright indescribable something that his mind could not grasp. He knew the glasses by sight from having felt them with his hand.

He knows his wife and children by feeling the lines of their faces. For two weeks he will be kept in a darkened room and at the end of that time the physician believes he will have his eyesight restored. How he will regard the coming out of inky darkness to the gladness of sunshine none can tell.

Fight Will Be Bitter.

Those who will persist in closing their ears against the continual recommendation of Dr. King's New Discovery for Consumption will have a long and bitter fight with their troubles, if not ended earlier by fatal termination. Improvement came at once and four bottles entirely cured her. Guaranteed by all druggists. Price 50c. and \$1.00. Trial bottles free.

NATURE'S WAY

NATURE purifies the atmosphere and renders our surroundings habitable by sending the lightning and the rain. We, too, should purify our bodies, if health is to be restored or maintained. When the bowels do not move regularly, your liver is out of order, and you cannot be well. The food lies undigested on the stomach, generating foul gases that poison the blood, and frequently induces chronic ailments and long years of suffering. If troubled with constipation, take PLANTERS NUBIAN TEA—the certain cure for all bowel troubles, biliousness, vertigo, bad breath, coated tongue, sour taste in mouth, insomnia, mental torpor, indigestion, headache, belching up of foul gases, distention of the abdomen, and all other distressing symptoms of Dyspepsia. A pure and healthful vegetable compound—the only remedy that positively cures Constipation and restores every organ of the body to vigorous and healthy action. All druggists sell it, or we send it prepaid, by mail; 25c. a package, 5 packages, \$1.00. Sample and booklet free to any address.

Christmas Tree next week? Yes, Miss Corda Brenneman was at THE HERALD home Tuesday and told us she was working up an interest in the matter, and there are others, perhaps.

The Jackson papers note a visit of Dr. John A. Taulbee of that place to the bedside of his venerable parents, Major Wm. Taulbee and wife of State-rod fork, who are said to be quite ill.

There is a move on foot to organize a county medical society, and the practitioners of Wolfe are requested to meet in Campton on Saturday next, 19th inst., with this in view.

Tomorrow May Be Too Late.

How many times have you put off something, saying: "I'll do that tomorrow"? But when tomorrow came you again put it off and have kept on putting it off ever since. When asked why, you say "Oh, there's plenty of time yet." IS THERE? Just one example. A young man was taken ill and attended by a physician who left him some medicine to take at a certain hour. When the time arrived the young man, feeling better, said: "I don't need that now," and cast it aside. On the morrow a cramp on the door and the tear-stained faces of wife and little one told a story too sad to picture.
